

PROJECT PRESENTATION

By carlton Kandie

INTRODUCTION

- Background: House hunting is one of the most important yet stressful decisions people face.
- Challenges:
 - Endless scrolling through scattered listings
 - Unclear property details or outdated information
 - No easy way to compare houses side by side
 - Stress from wasted visits and missed opportunities
- Our Vision: Create a smart, user-friendly platform that combines technology, convenience, and personalization to make house hunting smoother.

PROBLEMS

- Too many scattered listings
- Hard to compare properties
- No personalized recommendations
- Wasted time on unsuitable houses

TECHNOLOGY USED

HTML, CSS, JavaScript

- Core web technologies for building the user interface.
- Ensure a clean, responsive, and interactive experience.

Google Maps API / Map Integration

- Displays properties on an interactive map.
- Provides location-based search, directions, and neighborhood info.

RESOURCE PAGE

Presenting live not your thing?
No worries! Record your Canva
Presentation your audience can
watch at their own pace.

Don't forget to delete or hide
this page before presenting.

Click the Share button on the top right corner of your screen and select 'Present and Record.'

Click 'Go to recording studio,' where you can choose the video and audio source for your video presentation.

Feel free to choose the 'No camera' option and record your voice only.

Start recording, and press pause in between takes if you have to.

Once you're done, download your Canva Presentation in MP4 file format or get a link to your Talking Presentation and share it with others.

You can also record a video inside the editor! Go to 'Uploads' and click on 'Record yourself'.
